

Five Reasons You Need

the Laurastar LIFT For Your Sewing, Quilting, and Craft Projects

1. Long arm quilters LOVE it because they can apply the iron while the fabric is on the long arm—one of the advantages of the 7 ft steam cord.
2. No need to use starch or starch alternatives to get a quick, clean, FLAT press. Once pressed, seams are set—quickly and effectively and resists wrinkling.
3. No need to have to wait for the fabric to DRY as you do with a traditional iron due to Laurastar's Microfine Dry Steam.
4. Laurastar LIFT is very PORTABLE allowing you to take the iron with you to a weekend retreat or around the house to refresh hanging curtains or bedding.
5. Don't RISK washing heirloom quilts—simply clean, sanitize, and remove creases easily with the Laurastar's Microfine Dry Steam.
