Pre-Class Instructions

Before Class: Please purchase your fabric, interfacing and batting before class. The fabric requirements listed are enough to make the entire quilt.

The interfacing used in the project, Pellon Featherweight Non-Woven #910 is used because of its crisp consistency, making it ideal for marking the block sections.

- Cut one 12" square each of interfacing, batting and muslin.
- Spray baste the three layers together in this order: interfacing, batting, muslin.
