Pre-Class Instructions

Before Class Allow adequate time to do these steps, do not try to accomplish this the night before class. **You should plan on spending 6-8 hours for prep work.**

- 1) Cut all fabrics, Soft & Stable, fusible interfacing (SF 101), and pattern pieces. The instructions are on page 2 & 3.

Fuse the interfacing to the corresponding pieces.

- 2) Quilt the fabric, cut out the pattern pieces and seal the edges. (Pages 2 & 3)

You can also use a narrow zigzag stitch or a 3 or 4 thread narrow overlock stitch on the serger to seal the edges.

- 3) **Label all the pieces.** Labels can be found on page 12. I suggest making a copy of the labels and use the copy in case you want to make another bag. Keep the original labels.
- 4) Prepare the bias binding. See page 1 of the pattern, section called "Making the Binding" This binding is used to cover all the seams outside the bag and is used in the final construction of the bag.
